Setting up the environment

Notes: Setting up the R environment by loading the 'ggplot2' and 'palmer penguins' packages

```
library(ggplot2)
library(palmerpenguins)
```

View penguins data

```
data("penguins")
View(penguins)
```

Visualization

```
ggplot(data = penguins,aes(x=flipper_length_mm,y=body_mass_g)) +
  geom_point(aes(color = species))
```

```
## Warning: Removed 2 rows containing missing values (geom_point).
```
